Important Note: These are two separate degree programs. Therefore, one thesis, terminal project or examination for both is **not** acceptable. The student must have individual supervisory committees for each degree program. The chair of each committee must be from the major department of that particular master's degree program. All courses taken by the student since admission to the University of Florida as a graduate student must be accounted for on these forms. At the department's discretion, up to **nine** credits may be shared between the two degrees. Any changes to these programs of study must be submitted to the UF Graduate School as soon as possible — no later than the midpoint deadline published in the graduate catalog for the term during which the student has applied for graduation.

Approval of this program of study does not constitute certification of this degree for graduation.
